Subject: U&O FIP: Cost Increase

Hi Dee-

The total cost for the FIP went from \$78 million to \$83 million.

The reason for this increase was due to OOOOa, and the frequency of LDAR.

Initially, the cost analysis included the cost of conducting LDAR inspections **annually** for all facilities, compressor stations and well sites.

By factoring in OOOOa, the cost analysis now factors in **quarterly** LDAR inspections for compressor stations & **semi-annual** LDAR inspections for wells sites.

Let me know if you need more info!

Thanks-

Alexas
